Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant will submit a new claim set. An important aspect of the invention is the "custom-made" ready-to-use character of the final product. It was suggested that the composition claims be drafted to be product-by-process claims dependent on the method of making claims. The reaction between sulfamic acid and the nutrient materials will need to be clearly stated in the claims..

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
